DETAILED ACTION

Applicant's application was filed June 7, 1995. Claim 98 is pending. Priority is granted to the filing date of December 1, 1989.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Claim 98 is rejected under 35 U.S.C. 102(e) as being clearly anticipated by *Conneely et al.*

Conneely et al. taught the cDNA sequence encoding the human lactoferrin protein. See entire patent, specifically claim 3. Thus, the claimed invention is clearly anticipated by the prior art.

No claims are allowed.
